## **Pledge**

Social Security is the only dependable source of income for retired Americans and supports millions of families through its disability and survivors programs. Every working person pays into it and earns benefits.

For 75 years, Social Security has been America's most trusted institution. It is frugally administered and soundly financed to continue providing a foundation of economic security for future generations.

In the interests of my constituents - the men, women and children who are Social Security's current and future beneficiaries - I pledge to:

- Defend the integrity of Social Security against efforts to reduce its benefits or weaken its protections;
- Support responsible efforts to strengthen Social Security benefits;
- Oppose any and all efforts to reduce the federal deficit by failing to fully honor obligations to the Social Security Trust Fund, built by the payroll contributions of working Americans.
